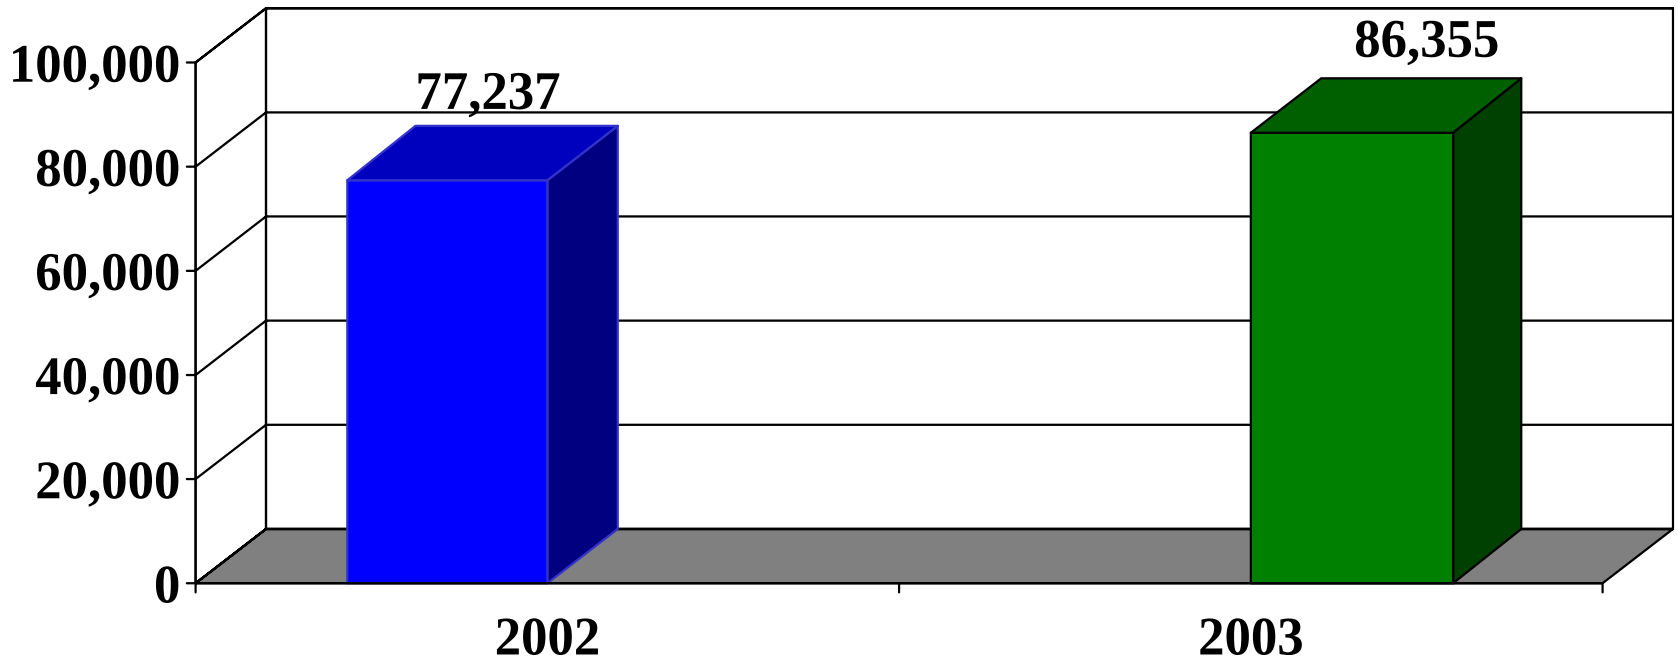
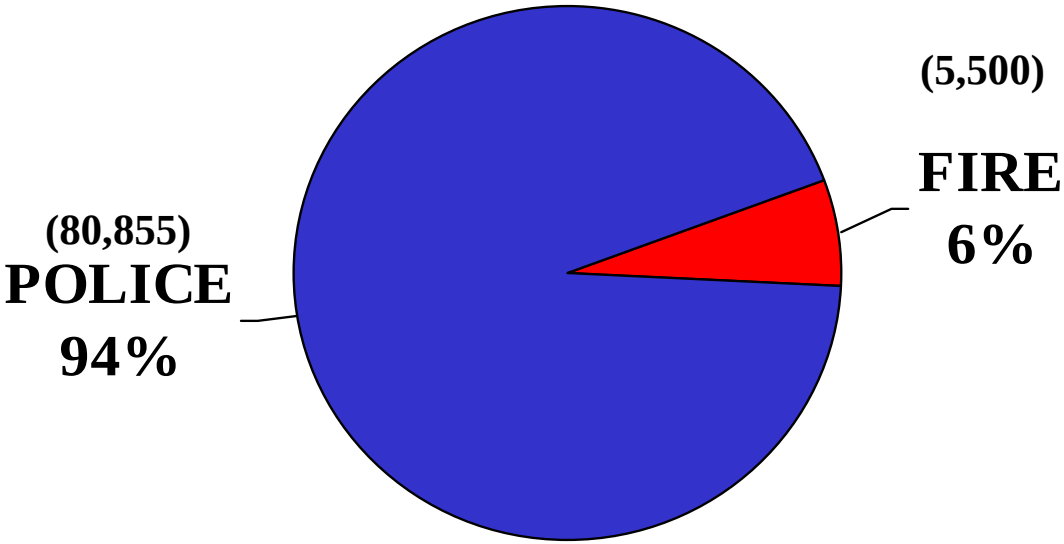
Communication Section Total Activities Dispatched
2002-2003



Definition: The graph represents the total number of calls for service received.

Note: Telephone calls received for general information, directions, etc. are not included in the above total. Not every call for service generates a call dispatched.

Communications Section Type of Calls Dispatched 2003

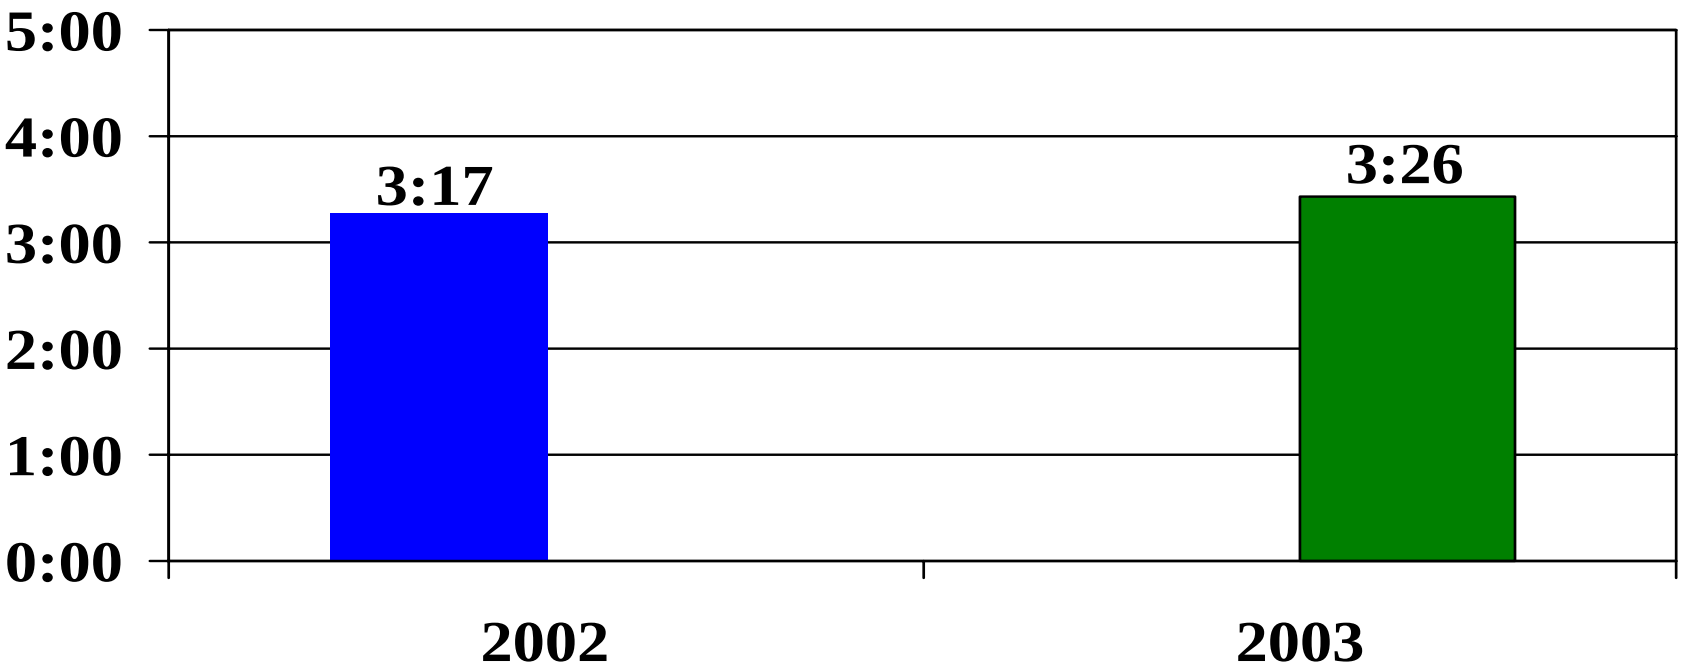


Total Calls – 86,355

Definition: **This graph depicts the total number of police and fire calls for service the 24-hour telecommunications operators dispatched.**

Note: **Police activity includes not only calls for service from citizens but also self-initiated calls such as traffic stops, motorist aid, etc.**

Police Response Time to Priority 1 Calls
2002 - 2003



Definition: **The Graph portrays the time it takes a police officer to respond to a priority one call from the second the telephone call is received by the telecommunications operator to the second the officer arrives at the location. A priority one call is defined as a call in which there exists an imminent threat to life and/or potentially severe property loss. The Patrol Division's goal is to have an average response time to priority one calls of less than five (5) minutes.**
